OUR CATALOGUES

Would you be interested in a permanent, loose-leaf catalogue consisting of the following divisions:

I. WEST COAST WILDINGS

Ferns and Mosses
Sunny Border Plants
Rock Garden Plants
Irises
Bulbs

Water Margin Plants
Shade Lovers
Trees and Shrubs
Orchids

II. WILD FLOWERS FROM YOUR OLD HOME STATE

Containing practically the same divisions as in No. I, but of plants native to the states other than those bordering the Pacific.

III. THE LITTLE IRISES

Dwarf Irises
Beardless Irises, Natives and Species

Please do not understand that above catalogue contains ALL the wild flowers native to the U. S. But it does contain some found in every state in the Union and those most commonly known and loved by children and grown-ups alike—those which can be successfully grown in gardens. No illustrations yet but the loose leaf construction will make it possible to insert pages of illustrations later and these we hope to be able to offer to you later if you desire them. We will also send you from time to time pages of new offerings, changes in prices, lists of interesting new flower and garden books, special bargains and other useful information that may come to hand.

Since this has been an expensive catalogue to get together and since we wish to put it into the hands only of those genuinely interested, we are asking you to send us 10 cents for each one of the three divisions which you desire, or 25 cents for the catalogue as a whole, including a permanent cover with rings. This 25 cents you may deduct from the first \$5 order sent us. Or you may secure one division of this catalogue for each order for one of the \$2 SPECIALS offered on another page of this folder.
